Stará žitná myslivecká is a unique all-Czech beverage with a rich history dating back to the 16<sup>th</sup> century. The foundation of the drink is carefully selected rye distillate. Its original recipe gives it a subtle taste and a fruity

flavour. The recipe has been a closely guarded secret for centuries. For its entire existence, only a small number of selected people have known the recipe.

- Original Stará žitná myslivecká matures in oak barrels

### EUROPE'S OLDEST DISTILLERY - PALÍRNA U ZELENEHO STROMU

The story of Palírna U Zeleného stromu (The Green Tree Distillery) began on 4 July 1518 when one of the most powerful Czech lords at the turn of the 15<sup>th</sup> and 16<sup>th</sup> centuries, William of Pernstein, granted brewing rights to the Green Tree house. This act started a five-hundred-year-long tradition of spirit production unique within Europe in Prostějov.
